## *Dedication*

To Mr. T. T. Beemon we proudly dedicate the 1953 EAGLE. He has never been too busy to help us with our problems. We feel that no one has ever been more deserving; so to T. T. Beemon, for his untiring effort in his teaching, in winning new friends, and in his work for Hinds, we dedicate this 1953 EAGLE.

## SECURITY

Many of our young students attending college today, do so with the idea of providing security for themselves in an economic world. They seek to acquire those skills that will insure their obtaining and holding good paying positions with government or industry. It is our aim to train our students in those skills, but we also have what we believe is a higher aim. We are trying to teach our young friends the security of living in a democratic political system, where each individual is insured the right of developing his capabilities to the fullest extent possible. We are teaching them the security of living in a society organized and operating under the highest moral laws; and we are teaching them systems of thought that will give them confidence in meeting and solving the great problems of the world today. For, in the words of General George Marshall, "There is no security, only opportunity."
